Lakeshore School Division shall:

- Use information gathered by the classroom teacher as the first source of information regarding student learning
- Use assessment results to guide programming decisions for the student
- Ensure qualified professionals who are designated by the school board or the principal conduct specialized assessments, interpret results, follow principles of fair assessment practices and provide parents and classroom teachers with programming recommendations
- Use qualified professionals and other service providers and involve parents to complete specialized assessments when appropriate
- Ensure that school teams, including parents when possible, are responsible for developing student-specific outcomes where indicated by the assessment process
